

TARIFF PICTURES.

In Mahoning county, O., in which the city of Youngstown is located, the total amount of industrial wages paid in 1880 was \$1,700,000.

In 1890 the wages paid in Youngstown alone were \$3,071,182.

It is this kind of progress that Democratic success has brought to a sudden halt.

—New York Press.

A POSSIBLE EXPLANATION.

Kansas City Journal.—It is just possible that a threat by Speaker Crisp to lay bland on the shelf would result in laying Speaker Crisp on the shelf.

PERNICIOUS ACTIVITY.

St. Louis Globe-Democrat.—If Secretary Morton isn't careful he will write too many letters upon subjects which have no relation to the business of the garden seed department.

MUST BE HIGH.

St. Louis Globe-Democrat.—There is an evident intention on the part of the Democratic Senators to sell themselves as dearly as possible in the coming struggle over the Sherman Law.

PATRONAGE VERSUS SOUND MONEY.

St. Louis Globe-Democrat.—The extent of the Democratic vote on the sound money bill depends largely on the number of paying officials which Cleveland is willing to put at the disposal of Congressmen.

THEY GO WEST.

Chicago Tribune.—Out of \$74,741 alien stowaway passengers landed in New York in 1892, only 1,116 gave their destination as the Southern States. So far this year the proportion of Southward bound immigrants is no greater.

WHAT DEMOCRACY WILL DO.

Atlanta Constitution.—The Democratic party is all right. Give it a ghost of a chance and it will redeem its pledges—cut down the tariff to a revenue basis, reduce genuine bi-metalism and repeal the 10 per cent. tax on state banks.

THE REAL PROBLEM.

St. Louis Globe-Democrat.—Cleveland sits on his seat of power in nowadays and corrugates his brow with calculations as to how various Federal officials can be disposed of to the best advantage in securing Democratic votes for the repeal of the Sherman Law.

GLAD BUSINESS IS SKATES IS GOOD.

Ware.—Manufacturers are this season receiving larger orders than ever for skates. One company received two orders in one week for 10,000 pairs, another for 50,000 pairs. As is well known, this is the busy season for the manufacture of skates.

NO LONGER PIVOTAL.

St. Louis Globe-Democrat.—According to the Democrats New York is not necessary to the success of their party in Presidential elections hereafter, but if that state should go against them this year, and the chances are that it will, the outlook for them in 1896 would lose some of its charms.

NO FILES ON POTTER P.

Des Moines Register.—There now finding fault with Mr. Palmer for entertaining the Infants at his hotel at the expense of the Government, and entertaining her at his private expense at his private residence. With the profit of the case transaction he paid the expenses of the other.

THIS EXPLAINS IT.

St. Louis Post-Dispatch.—Kentuckians are complaining bitterly that their building at the Fair is ill-kept and that their display is inferior to that of other states. But it must be remembered that many Kentuckians have had to put in a great deal of time in looking after the national offices that must be filled by good men, and that Grover has been so busy that the time they might have devoted to the Fair Building has been consumed to the service of the Nation.

WHY CLEVELAND SHOULD SPEAK.

Philadelphia Manufacturer.—If it was Mr. Cleveland's desire to destroy confidence, to stop credit, to embarrass banks, to drive money into hidden hoards, to break down American industry, the country may resume its business activity with every assurance that it will permit no legislation to destroy it.

This number of immigrants to the United States last year was a few less than a round half million. This was 12,000 less than in 1892.

AN ex Governor of Iowa is a door-walker in a dry goods house, but is no less honorable on that account, and has more authority.

Is a perfect state of being, with and humor could not exist because both depend upon imperfection or incongruity for their matter.

The Director of our mint says that the United States has \$600,000,000 gold, \$700,000,000 silver, \$400,000,000 paper, or over \$1.5 billion in all.

As Mr. CLEVELAND sits on the wild veranda enjoying the cool breezes of Indiana's May, he is not idle. He thinks and thinks and thinks more.

A FARMER near Sparta, N. C., had missed many eggs of rats, so he decided to set a trap and catch the offender. The thief, he claims, proved to be a large rat.

Good Service.

To accommodate the large world's Fair travel the Chesapeake and Ohio will run No. 1 and No. 2 will now run through, without change, all between Washington and Chicago over the Chesapeake and Ohio Big Four route.

He's Gone.

Professor W. Stone, the phenologist, left yesterday for Italy, where he will practice the study of the human face. He is a great expert of the world and its ways and can be easily made the center of attraction in many ridiculous pranks, such as snipe hunting, etc.

We wish the Professor success, but fear that if he depends upon his personal charms and ability as a mind-reader for a one-street path in old age he will be disappointed. We hope he will make enough in his new field to settle his accounts at the office.
